

Guided Tours in Joomla

The feature you did not know you needed

What is a Guided Tour?

A short tutorial that shows users around.

Who are Guided Tours for?

- End users

- Guide users and navigate Joomla

- Help other users maintain their website

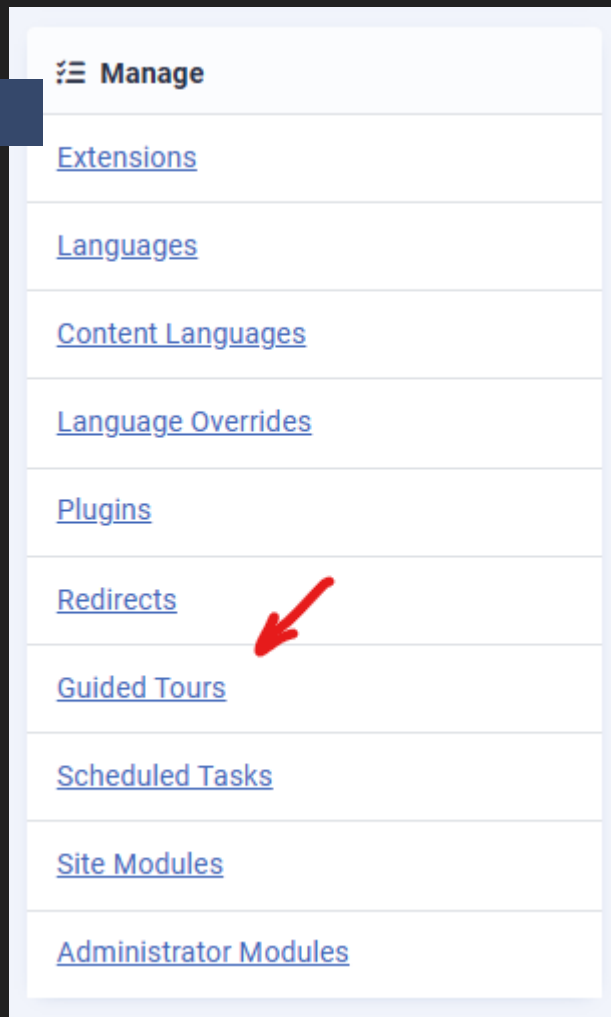

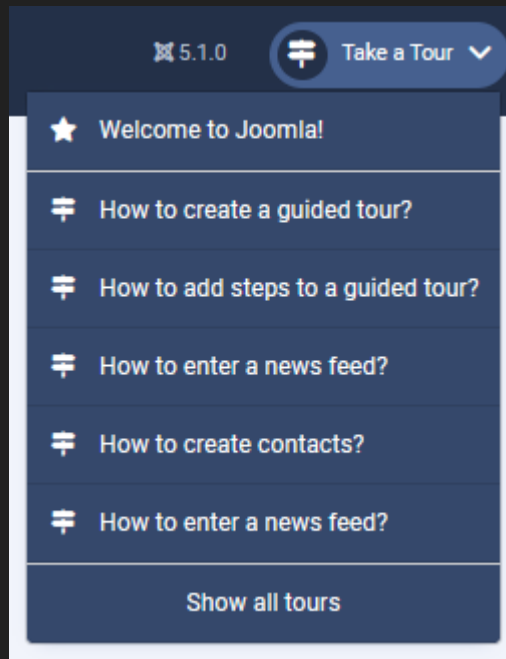

- Implementers

- Guide users maintain content, make updates...

- Third-party developers

- Help users navigate their extension

How to get started

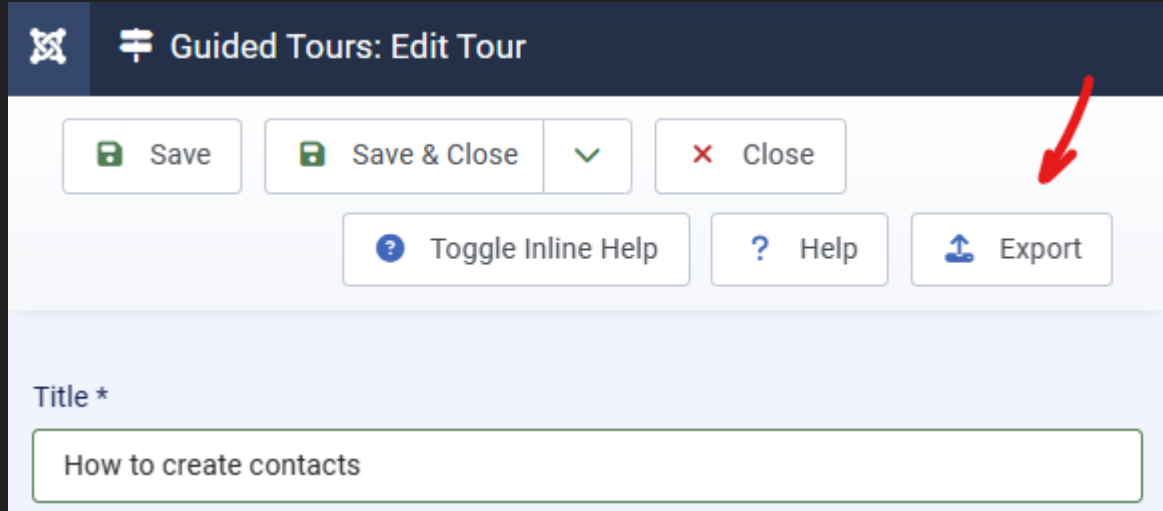

joomla-extensions / tours-toolkit

The Guided Tours Toolkit

Share your Guided Tours

<https://github.com/joomla-extensions/tours-toolkit>

Export Tours as json

The screenshot shows a web application interface for editing guided tours. At the top, a dark blue header bar contains a close icon (X) and the title "Guided Tours: Edit Tour". Below the header, a light blue toolbar contains several buttons: "Save" (with a green floppy disk icon), "Save & Close" (with a green floppy disk icon and a green checkmark), "Close" (with a red X icon), "Toggle Inline Help" (with a blue question mark icon), "Help" (with a blue question mark icon), and "Export" (with a blue upload icon). A red arrow points to the "Export" button. Below the toolbar, the form has a section titled "Title *" with a text input field containing the text "How to create contacts".

How to create contacts

Import json formatted Tours

Import tours as JSON file

Upload a .json file containing tours and steps.

Choose File

No file chosen

Maximum upload size: **32.00 MB**

Process

Import steps from a CSV file

Import tour steps as CSV file

Tour

ID(s) present in CSV file 

Upload a .csv file containing steps.

Choose File

No file chosen

Maximum upload size: **32.00 MB**

Process

You can import a CSV file containing any of the following columns (the title column is mandatory):

| Column | Value |
|---------|---|
| tour_id | The tour id the step is linked to. Unnecessary column if a tour is selected. All steps will be applied to that tour |
| title | The mandatory title |
